6-in-1 Accelerated Accreditation

3 Days - 6 Tools

The 6-in-1 Accelerated Accreditation is a great way to add multiple assessments to your OD tool kit. With multiple assessments you will be able to identify and overcome more organisation challenges. As a part of the 6-in-1 Accreditation, you will gain access to 6 cutting edge assessment tools:

DISC

The DISC report gives you not only an understanding of how you are perceived by others, but it also gives you a language (or set of terms) to discuss your behaviour, communication, style of working and reactions. It is the ultimate 'mirror on the wall' that explains what everyone else can see.

Workplace Motivators

By using the Workplace Motivators (WPMOT) assessment, people can tap into a deeper realisation of who they are. They will gain powerful insight into why they move into action and what really motivates them to achieve.

TTI Emotional Quotient

The importance of developing one's Emotional Intelligence is well researched and documented. Highly developed Emotional Intelligence is becoming one of the most sought after traits in business. The TTI EQ provides a framework to understand and develop Emotional Intelligence.

DISC-Motivators Combo

The DISC-Motivators Combo assessment is a powerful innovation that combines the simplicity of DISC with the insights of the Workplace Motivators. With this one tool you will be able to identify HOW people behave as well as WHY they move into action.

Behavioural Intelligence

Another powerful addition to our suite of tools is Behavioural Intelligence. This tool allows you to examine a person's level of Emotional Intelligence, as well as their behavioural style. With this information you can talk about specific Emotional Intelligence traits and how to apply them at a behavioural level.
